

ANNUAL
WHOLESALE CATALOGUE
OF
AMERICAN TREES, SHRUBS,
PLANTS AND SEEDS,
CULTIVATED AND FOR SALE AT THE
LINNÆAN BOTANIC GARDEN AND NURSERIES
NEAR NEW-YORK.

WILLIAM PRINCE & SONS, PROPRIETORS.

The Botanic Names generally are according to Pursh's Flora of North-America, and others to Michaux, Nuttall, Torrey, Elliott, Hortus-Britannicus, &c.

Twenty-eighth Edition.

PROVIDENCE:
W. MARSHALL AND CO. PRINTERS.

1832.

The following catalogues relative to the different departments of the establishment, may be obtained *gratis* of the different agents, or by direct application to the proprietor:

- No. 1. Fruit and Hardy Ornamental Trees, Shrubs and Plants—pp. 100.
2. Bulbous and Tuberous rooted Plants—pp. 24.
3. Greenhouse Trees, Shrubs and Plants—pp. 44.
4. American Indigenous Trees, Shrubs, Plants and Seeds—pp. 48.
5. A Catalogue of Seeds.

BOOKS.—Prince's Treatise on Horticulture	75 cents.
Treatise on the Vine	\$1 50
Treatise on Fruits	2 00

VALUE OF MONEY.

\$1, or dollar, contains 100 *cents*, and is equal to *four shillings and six pence* (British) sterling; or to *five francs and thirty centimes* of France; or to *two and a half guilders* of Holland.

22 cents make *one shilling* sterling.

19 cents are equal to *one franc* of France.

40 cents are equal to *one Dutch guilder*.

\$1 is equal to *one dollar and ten groschen* Saxon currency, or to *one and a half dollars* Prussian currency.

VALEUR DE L'ARGENT.

\$1 ou un dollar contient cent cents, & est égal à quatre shelings & six pence sterling, de la Grande Bretagne, ou à cinque francs trente centimes de France, ou à deux et demie florins de la Hollande.

22 cents font un shelling sterling.

19 cents forment ou font un franc de France.

40 cents valent un florin Hollandais.

\$1 est équivalens à un dollar et demie de Prusse, ou à un gourd et neuf groschen d'argent de Saxony.

MEASURES AND WEIGHTS.

A bushel of seeds contains 32 *quarts*, or 8 *gallons*.

A quart is the quarter of a gallon.

A lb. is nearly the same as the lb. of Europe.

31 Prussian loth are equal to a lb.

A Prussian scheffel is equal to 1½ bushels.

N B. Where no prices are stated in the Catalogue for seeds, packages can be put up at 25 cents each, or upwards.

MESURES & POIDS.

Un bushel (boisseau) de semences contient 32 quartes ou 8 galons.

Le quarte est la quatrième partie d'un galon.

Une lb. est à peu près égale à la lb. (livre) de l'Europe.

31 loth de Prusse sont égale à une lb. ou livre.

Un scheidel de Prusse est égale a $1\frac{1}{2}$ bushels.

Trois boisseaux de France sont égale à un bushel

Deux lb. ou livres font un kilogram.

N. B. Quant à ces espèces ou il n'y a point de prix fixé—on peut fournir des paquets à 25 cents pour chaque espèce, ou pour une somme d'autant plus considérable qu'on peut lui demander.

* denotes Annuals.

Nota Bens.—All correspondents who receive this sheet only, will receive a Catalogue of the Herbaceous Plants by the next ship.

HERBACEOUS PLANTS.

N. B. In this list many annual species are omitted, they being of little import, but seeds of them will be supplied if desired. Seeds of a large number of the perennial species can also be supplied, the prices of which will be regulated by the plenty or scarcity of the season, but no less than 25 cents worth can be supplied of any species.
